Dear Mr. Lekas:

Re: Utah Experimental Site #1

ACT/047/002

As discussed in our telephone conversation of Monday, December 18, the Utah State Division of Oil, Gas, and Mining is in the need of some further information from Geokinetics concerning its Mining Plan. For your convenience, the following is a list of the further information which is needed:

1. An amendment to the MR Form 2 stating a more accurate estimate of the duration of mining operations;
2. A completed MR Form 8 which is a commitment to Rule M-10 (Reclamation Standards) of the Utah Mined Land Reclamation Act of 1975;
3. An updated map of the surface facilities at the site;
4. A copy of the revegetation plans at the site, to be received at a later date (approximately 4 to 6 weeks), as we discussed.

We appreciate your cooperation in submitting these materials.

Very truly yours,
